[Cost to keep us employed simply falls on the wrong side of the equation and at many companies that Equation is reevaluated annually which means every year we are at risk](#)
[But the myth of job stability may be the least of our concerns a 2011 study conducted by a team Of social scientists at the university of canberra in australia concluded that having a job we hate is As bad for our health and sometimes worse than not having a job at all levels of depression and](#)
